

# Our Facility

## Community Hospital Outpatient Centre

in St. John is a 69,000 square foot satellite facility of Community Hospital's main campus. The Centre provides specialty and family healthcare services, immediate care, diagnostics and Outpatient Physical Therapy.

The outpatient physical therapy department is a state of the art department featuring the latest in rehabilitation technology and equipment including private and semi private treatment rooms, mobilization tables, stationary bikes, Nustep, treadmills, upper body ergometers, elliptical, Biodex resistance equipment, Total Gym, cable columns and free weights under the guidance and supervision of highly trained physical therapists.

We perform special tests to identify the basis for your movement problems.

## Our Therapists

Our physical therapists are graduates of accredited physical therapy programs and are licensed by the State of Indiana. Many hold advanced Masters and Doctorate Degrees in Physical Therapy. The therapists have earned advanced certifications including APTA board certification in Orthopedic Physical Therapy, specialties in Strength and Conditioning, and years of continuing education in treatment of the spine as well as certifications in Work Injury Management. Community Hospital Physical Therapists aggressively pursue continuing education on a yearly basis in a wide range of areas including spine, manual therapy, shoulder injuries, joint replacements, sports related injuries and work injury management.

Community Hospital Physical Therapists regularly participate in community outreach programs to assist our residents in injury prevention, pain and arthritis management and more. Look for listings in the Community Healthcare Systems quarterly Take Care! publication or on our website at [www.comhs.org](http://www.comhs.org).

### Your physical therapist will:

- Perform a complete initial physical therapy evaluation upon your physician's referral. lk
- Perform special tests to identify the basis for your movement problems. lk
- Develop an individualized treatment plan of care to address your specific functional goals. lk
- The same therapist will treat you from evaluation through discharge to ensure your best possible functional outcomes.
