

Own a part of the History...

No one knew for certain that the Munster hospital project would work.

While there were those who recognized a need for a new hospital back in the 1960s, others felt the hospitals in the area were adequate. The idea, conceived by a team of doctors from the Hammond Clinic, would undergo years of planning and changes that were peppered with indecision, lack of funds and growing concern among community leaders and residents.

From corn field to hospital, none of this happened overnight.

Experience the evolution of Community Hospital through the newly released book, "Community Hospital - An Impossible Dream". This four-color, 300-page hard-bound book details the history of Community Hospital from conception through 2006 and outlines the challenges, diligence and growth that made Community Hospital the quality healthcare facility it is today.

For more information call 219-836-0130 or complete the form below to order your copy today! Books are also available at the Community Hospital Gift Shop and Borders in Highland.
