

St. Catherine Hospital 4321 Fir St.  
East Chicago, IN

# MED-CLINIC

at St. Catherine Hospital

## Why come to the Med-Clinic

- **Quality** – Med-Clinic is staffed by experienced, Board-Certified, Advanced Family Nurse Practitioners.
- **Convenience** – Med-Clinic sees patients on a “walk-in” basis, with extended hours in the evenings and on weekends.
- **Value** – Med-Clinic provides quality medical care with significant cost savings to patients. We accept most major insurance plans including Medicare and Medicaid. If your insurance covers your visit, a one-time easy co-payment is required on the day you visit. If you do not have insurance or prefer to pay out-of-pocket, we accept cash, credit and debit cards.
- **Location** – Easy to find, the Med-Clinic entrance is across from St. Catherine Hospital's Emergency Department on Elm Street.

At Med-Clinic, patients are seen on a walk-in basis without appointments. We deliver quality care seven days a week.

Hours: Mon - Fri 12 - 8 p.m.

### Med-Clinic at St. Catherine Hospital

The Med-Clinic at St. Catherine Hospital takes care of the everyday health needs of the entire family. Our staff of board certified Advanced Family Nurse Practitioners can diagnose and prescribe medicines for a variety of common illnesses, offer health screenings and vaccinations.

No appointment is needed. Our experienced staff will see patients in the evenings and on weekends. Extended hours make it easier for busy people to get the care they need whether it is after school or work.

### Quality Counts

Located on the campus of St. Catherine Hospital, Med-Clinic is affiliated with Community Healthcare System, an organization recognized nationally for the high quality care that is provided to its patients in a safe environment.

**Med-Clinic is ready for you when**

### Want to stay healthy:

Vaccinations  
School, Camp and Sports Physicals

### Who Will Care For Me?

Under the collaboration of Medical Director Matthew Libiran, M.D., the Med-Clinic is staffed by highly skilled Family Nurse Practitioners who are qualified to diagnose and prescribe treatment for a variety of conditions. The Nurse Practitioners will evaluate minor illnesses for patients ages 18 months and older. Should follow-up care be needed, a record of your visit can be sent to your regular doctor. If you don't have a doctor, our patient navigators will work with you to help you find one. The navigators will also link patients with resources such as discounted pharmaceutical programs, free health screenings, educational programs and other needed health services.
